The Prairie View A&M University Cluster

The PVAMU Cluster is composed of the university and interested businesses and corporations. Through joint action, members of the Cluster identify major areas for institutional development, establish priorities for action, and help to augment educational opportunities available to students. The Cluster operates by utilizing committees that are comprised of students, faculty, and industry representatives.

The benefits gained from the Cluster are:

- highly skilled pool of applicants from which to recruit professional and management talent, and
- the return investment of graduates participating in future recruiting and other university events.
